Re: Current Normalized Prices

Enclosed are advance copies of the 1976 current normalized prices that will soon be printed and distributed by the Water Resources Council.

They were calculated by the Economic Research Service using a distributed lag procedure as approved by the Council of Representatives.

These prices are to be used in evaluation of water and related land resource projects. They replace the interim set of current normalized prices dated November 1975.

Additional printed copies from the Water Resources Council will be distributed as soon as they are available.
