RE: Washington County EWP Work

Dear Sylvia:

Washington County would like to express our thanks and appreciation to NRCS for all the work they have done to help us protect critical infrastructure that was in danger since the severe storms we had in January of 2005. The NRCS staff that have been in our county working have accomplished a great amount of work with a limited staff size in a short amount of time.

We know NRCS brought in people from all over the country to help with the EWP projects and we are very grateful for all the hard work that your agency has put in to help us with our damaged waterways, roads and infrastructure.

While other agencies were talking about how much help their programs could give us, NRCS quickly moved in and went right to work with the local government agencies to help protect areas from further damage.

Please pass this along to the rest of your agency along with our thanks for all the help they have given us.

Sincerely,

WASHINGTON COUNTY COMMISSION

James J. Eardley
