
SOIL ASSOCIATIONS*

1 — Valentine-Gannett-Elsmere association: Deep, nearly level to very steep, excessively drained to very poorly drained sandy and loamy soils on sandhills and in wet valleys

2 — Valentine association: Deep, undulating to hilly, excessively drained sandy soils on sandhills and in swales

3 — Valentine-Doger-Dunday association: Deep, nearly level to steep, excessively drained and well-drained sandy soils on sandhills and in dry valleys

*Texture terms refer to the surface layer of the major soils.

Compiled 1977

Each area outlined on this map consists of more than one kind of soil. The map is thus meant for general planning rather than a basis for decisions on the use of specific tracts.
