Hawaii Technical Notes Announcement No. 2

TO: Field Offices (7 copies total)
PMC (1 copy)
Hawaii Resource Office (1 copy)
State Office (3 copies total. Route one to RTAT, Kaneshiro, Smith, Lum.)

FROM: Larry Yamamoto, State Resource Conservationist

SUBJECT: Distribution of Water Technical Note No. 11 - Water Budget Worksheet and revised page 4 of Water Technical Note No. 1 - Water Quality Risk Assessment

Attached is the subject material for insertion into the Hawaii Technical Notes Binder.

Water Technical Note - No. 11 is a Water Budget Worksheet which provides an indication of the potential for leaching of pesticides and nutrients through the soil to underlying aquifers.

Policy regarding its use is contained in Hawaii Bulletin No. HI-180-0-2.

If you would like training on how to use the Water Budget Worksheet and/or the Water Quality Risk Assessment, please work through your supervisor to make the necessary arrangements. If you have specific questions about the Worksheet or Assessment, please call Ruth Kirby at (808) 541-2600 ext. 122.

Revised page 4 of the Water Quality Risk Assessment (Tech Note No. 1), reflects the development of the Water Budget Worksheet and policy regarding its use.

FILING INSTRUCTIONS:

- Log this announcement in the Announcements index in the front of the binder.
- File this announcement in the front of Announcement No. 1.
- Log Technical Note No. 11 in the Water Technical Notes Index.
- File Technical Note No. 11 after Water Technical Note No. 10.
- Remove existing page 4 of Water Technical Note No. 1 (along with page 3 on the front side of the sheet) and replace it with the revised page 4 (along with the original page 3 on the front side).
