

FY2006 NEW HAMPSHIRE CSP NEW PRACTICE PAYMENTS

Upper and Lower Androscoggin Watersheds

These practices will only be used on enrolled acres and only to treat resource concerns beyond the Quality Criteria for SWAPA Natural Resource Concerns as defined in New Hampshire's FOTG Section III "Quality Criteria for Resource Management System (RMS) and Human Considerations". CSP new practice payments are based on 2001 average practice installation costs.

Practice Name	Practice Code	Practice Unit	2001 Average Cost Estimate (\$/unit)	CSP New Practice Payment Max. (50% of cost) ³	Cost Share Method
Animal Trails and Walkways - trail (includes culverts)	575	Ft.	\$ 10.43	\$ 5.21	AC
Critical Area Planting	342	Ac.	\$ 500.00	\$ 250.00	AC
Diversion	362	Ft.	\$ 4.50	\$ 2.25	AC
Fence	382	Ft.	\$ 1.75	\$ 0.88	AC
Filter Strip	393	Ac.	\$ 320.00	\$ 160.00	AC
Grassed Waterway	412	Ac.	\$ 5,445.00	\$ 2,722.50	AC
Lined Waterway or Outlet	468	Ft.	\$ 18.01	\$ 9.01	AC
Mulching (wood chips/byproducts) ¹	484	Ac.	\$ 4,120.78	\$ 2,060.39	AC
Pasture and Hayland Planting	512	Ac.	\$ 320.00	\$ 160.00	AC
Pipeline	516	Ft.	\$ 7.30	\$ 3.65	AC
Riparian Forest Buffer	391	Ac.	\$ 1,040.60	\$ 520.30	AC
Subsurface Drain ²	606	Ft.	\$ 7.30	\$ 3.65	AC
Tree/Shrub Establishment	612	Ac.	\$ 902.48	\$ 451.24	AC
Windbreak/Shelterbelt Establishment	380	Ft.	\$ 0.91	\$ 0.45	AC

¹ Mulching using wood chips/byproducts is usually done on small areas. The per acre rate is equivalent to \$0.05 per square foot.

² Subsurface Drain will be used in conjunction with Lined Waterway or Outlet.

³ Limited Resource Farmers will be eligible for 65 percent cost-share.
