

## INSTRUCTIONS FOR USE OF WASHINGTON CONSTRUCTION SPECIFICATION (CS-07)

### REMOVAL OF WATER

1. Applicability

Construction Specification CS-07 is applicable to the permanent and/or temporary diversion of surface water and dewatering of construction sites and borrow areas during construction.

2. Material Specifications

There are no material specifications complementary to Washington State Construction Specification CS-07.

3. Special Items to be Included on the Drawings:

- a. Location of the area to be dewatered.
- b. Gradient and cross section of dikes, channels and/or ditches.
- c. Special features needed such as pumps and wells.
- d. Special requirements for dewatering borrow areas.
- e. Special requirements for the control of erosion, sedimentation, and water pollution.
- f. Specify method of measurement and payment, if applicable.
