

INSTRUCTIONS FOR USE OF WASHINGTON CONSTRUCTION SPECIFICATION (CS-62)

PUMP

1. Applicability

Construction Specification CS-62 is applicable for installing pumps in wells or other sources of water for irrigation, drainage or livestock use. This specification is also applicable for pumping of wastes in tanks, ponds and lagoons.

2. Material Specifications

There are no material specifications complementary to Washington State Construction Specification CS-62.

3. Special Items to be Included on the Drawings:

- a. Specify the pump performance in discharge and pressure
- b. Pump intake requirements
- c. Foundation dimensions and anchors
- d. Screens, connections and valves on intake and discharge
- e. Housing and/or shading for pump and control panel
- f. Grounding of electrical motors.
- g. Specify cathodic protection, if applicable
- h. Specify method of measurement and payment, if applicable
