

# INSTRUCTIONS FOR USE OF WASHINGTON CONSTRUCTION SPECIFICATION (CS-57)

## ROCK SURFACING

### 1. Applicability

Construction Specification CS-57 is applicable to the furnishing and placement of rock surfacing material for access and foundations.

### 2. Material Specifications

The NRCS material specifications complementary to Washington State Construction Specification CS-57 are MS-209, Fabric Filters, MS-210, Aggregate Filters, and MS-212, Rock.

### 3. Special Items to be Included on the Drawings:

- a. Location, access and construction limit
- b. Typical cross section with grade and elevations
- c. Foundation preparation and subgrade requirements
- d. Rock and/or aggregate filter gradation
- e. Source of rock and/or aggregate filter
- f. Specific gravity, durability and angularity, if different from Material Specification MS-212, Rock
- g. Covering with topsoil, if applicable
- h. Special requirements for control of erosion, sedimentation, water pollution, and air pollution
- i. Specify method of measurement and payment, if applicable
