Owner/Operator Review

I have reviewed the drawings, construction specifications, and special provisions, and agree to construct this project in accordance with them. Modifications to the final drawings, specifications, or special provisions during construction will require approval from the NRCS prior to installation.

I agree to obtain all the necessary permits, easements, and water rights. I will inform the NRCS of all conditions pertaining to project construction as stated in the acquired permits. I agree to comply with all Federal, State, and local laws and regulations pertaining to this construction.

I acknowledge responsibility for marking private underground utilities affected by the project. The excavator will call the Utility Notification Center at least two full working days before excavation begins to ensure that all publicly owned underground utilities will be marked.
