

2015 State Ranking Questions (for all General EQIP, Statewide & Local Funding Categories)
Question

Answer only one of the question from the following group. Maximum points is 35. - SOIL EROSION
Does at least one of the planned practices have a CPPE of 2 towards Soil Erosion?
Does at least one of the planned practices have a CPPE of 3 towards Soil Erosion?
Does at least one of the planned practices have a CPPE of 4 or greater towards Soil Erosion?
Do at least two (2) of the planned practices have a CPPE of 3 or greater towards Soil Erosion?
Answer only one of the question from the following group. Maximum points is 35. - SOIL QUALITY DEGRADATION
Does at least one of the planned practices have a CPPE of 2 towards Soil Quality Degradation?
Does at least one of the planned practices have a CPPE of 3 towards Soil Quality Degradation?
Does at least one of the planned practices have a CPPE of 4 or greater towards Soil Quality Degradation?
Do at least two (2) of the planned practices have a CPPE of 3 or greater towards Soil Quality Degradation?
Answer only one of the question from the following group. Maximum points is 35. - EXCESS/INSUFFICIENT WATER
Does at least one of the planned practices have a CPPE of 2 towards Excess/Insufficient Water?
Does at least one of the planned practices have a CPPE of 3 towards Excess/Insufficient Water?
Does at least one of the planned practices have a CPPE of 4 or greater towards Excess/Insufficient Water?
Do at least two (2) of the planned practices have a CPPE of 3 or greater towards Excess/Insufficient Water?
Answer only one of the question from the following group. Maximum points is 35. - WATER QUALITY DEGRADATION
Does at least one of the planned practices have a CPPE of 2 towards Water Quality Degradation?
Does at least one of the planned practices have a CPPE of 3 towards Water Quality Degradation?
Does at least one of the planned practices have a CPPE of 4 or greater towards Water Quality Degradation?
Do at least two (2) of the planned practices have a CPPE of 3 or greater towards Water Quality Degradation?
Answer only one of the question from the following group. Maximum points is 35. - LIVESTOCK PRODUCTION LIMITATION
Does at least one of the planned practices have a CPPE of 2 towards Livestock Production Limitation ?
Does at least one of the planned practices have a CPPE of 3 towards Livestock Production Limitation ?
Does at least one of the planned practices have a CPPE of 4 or greater towards Livestock Production Limitation ?

Do at least two (2) of the planned practices have a CPPE of 3 or greater towards Livestock Production Limitation ?

Answer only one of the question from the following group. Maximum points is 35. - INADEQUATE HABITAT FOR FISH & WILDLIFE

Does at least one of the planned practices have a CPPE of 2 towards Inadequate Habitat for Fish & Wildlife?

Does at least one of the planned practices have a CPPE of 3 towards Inadequate Habitat for Fish & Wildlife?

Does at least one of the planned practices have a CPPE of 4 or greater towards Inadequate Habitat for Fish & Wildlife?

Do at least two (2) of the planned practices have a CPPE of 3 or greater towards Inadequate Habitat for Fish & Wildlife?

Answer only one of the question from the following group. Maximum points is 35. - DEGRADED PLANT CONDITION

Does at least one of the planned practices have a CPPE of 2 towards Degraded Plant Condition?

Does at least one of the planned practices have a CPPE of 3 towards Degraded Plant Condition?

Does at least one of the planned practices have a CPPE of 4 or or greater towards Degraded Plant Condition?

Do at least two (2) of the planned practices have a CPPE of 3 or greater towards Degraded Plant Condition?

Answer only one of the question from the following group. Maximum points is 35. - AIR QUALITY IMPACTS

Does at least one of the planned practices have a CPPE of 2 towards Air Quality Impacts?

Does at least one of the planned practices have a CPPE of 3 towards Air Quality Impacts?

Does at least one of the planned practices have a CPPE of 4 or greater towards Air Quality Impacts?

Do at least two (2) of the planned practices have a CPPE of 3 or greater towards Air Quality Impacts?

Answer only one of the question from the following group. Maximum points is 35. - INEFFICIENT ENERGY USE

Does at least one of the planned practices have a CPPE of 2 towards Insufficient Energy Use?

Does at least one of the planned practices have a CPPE of 3 towards Insufficient Energy Use?

Does at least one of the planned practices have a CPPE of 4 or greater towards Insufficient Energy Use?

Do at least two (2) of the planned practices have a CPPE of 3 or greater towards Insufficient Energy Use?

Answer any of the following questions that are applicple for the application.

Is the application area located in a state priority resource assessment area as shown on map?

Will the practice protect significant cultural resources?

Do any practice to be implemented through EQIP for this application have a 1 year practice lifespan?
