

Southern California Animal Feeding Operation (AFO) EQIP Fund Pool Fiscal Year 2017 Application Screening Worksheet <u>A Screening Worksheet must be completed for each eligible EQIP application.</u>		
Applicant Name:		
Evaluator Name:		
Date:	Batching Number:	Application No:
<p>EQIP is a competitive financial assistance program and applications are screened and ranked based on the expected conservation benefits of planned practices in the EQIP schedule of operations. This screening worksheet must be completed for each eligible applicant applying for financial assistance. Applications are accepted on a continuous basis; however, application batching periods are established for purposes of ranking and funding decisions. A screening worksheet can be processed for each application batching period. The goal of this screening tool is to ensure that conservation technical assistance and EQIP program benefits are managed efficiently to address priority conservation needs. Completion of this worksheet and documentation does not constitute an agreement to provide EQIP program benefits nor approval of a program contract. The original screening worksheet should be filed with the applicant case file or EQIP program file and unless the application is determined to be ineligible, the screening priority (High, Medium, and Low) must be recorded in ProTracts. Upon request, a copy of any completed screening worksheet may be provided to the applicant.</p>		
Screening Criteria Questions		
If Yes, continue to the next question. If No, Low Priority Status in ProTracts.	The applicant has reviewed and approved the EQIP schedule of operations that will be uploaded to the NRCS business tool, ProTracts, before or by the ranking deadline.	
If Yes, Low Priority Status in ProTracts. If No, continue to the next question.	In the last two EQIP program fiscal years, the applicant: <ol style="list-style-type: none"> a. Had a NRCS contract terminated – and/or, b. Failed to implement contract items in as existing EQIP contract according to the schedule in Form, NRCS-CPA-1155, "Conservation Plan and Schedule of Operations," and the contract was modified to reschedule contract items - installation delays were not due to NRCS error or design delay – and/or, c. Failed to implement rescheduled contract items agreed to according to Form, NRCS-CPA-153, "Agreement Covering Non-Compliance with Provisions of Contract," and Form, NRCS-CPA-1156, "Revision of Plan/Schedule of Operations or Modification of a Contract," – and/or, d. Installed conservation practices with financial assistance from NRCS that have not been maintained according to the practice operations and maintenance for the practice lifespan. 	
If Yes, Low Priority Status in ProTracts. If No, continue to the next question.	Any of the following are true: <ol style="list-style-type: none"> 1. The applicant does not have a completed Comprehensive Nutrient Management Plan (CNMP). 2. The EQIP schedule of operations includes structural practices that do not address resource concerns identified within an existing CNMP and the producer is not revising a CNMP. 3. The CNMP on file does not support the practices within the EQIP application. 	
If Yes, High Priority Status in ProTracts. If No, continue to the next question.	The EQIP application is for development of a Conservation Activity Plan (CAP).	

Screening Criteria Questions			
<p>If Yes, Medium Priority Status in ProTracts. If No, continue to the next question.</p>	<p>Either scenario 1 or 2 are true:</p> <ol style="list-style-type: none"> The EQIP schedule of operations includes structural practices NOT addressing a resource concern identified within the CNMP document (5-3 "Issues and Alternatives" or elsewhere), but is supported by the appropriate inventory and evaluation process which includes: field visit(s), a resource inventory and analysis, alternatives presented to the client and decision(s) made by the client are documented. A revised CNMP* will be written and submitted to NRCS <i>prior</i> to installation of all scheduled structural practices. <p>*Whether a CNMP necessitates a revision can be determined by the local NRCS District Conservationist or member of the NRCS State Nutrient Management Team.</p>		
<p>If Yes, High Priority Status in ProTracts. If No, Low Priority Status in ProTracts.</p>	<p>Application is supported by a completed, NRCS approved CNMP; and, conservation practices included in the EQIP schedule of operations address resource concerns documented in the CNMP.</p>
